

ATTENTION PARENTS, TEACHERS & STUDENTS

Hundreds of our young people struggle to comprehend the printed word, reading the same paragraph over and over . . .

**GET IT!
&
they JUST DON'T**

There is a solution!

- 15-20-% of the population has learning disabilities.
- 7% of all students have been diagnosed as learning disabled (most are dyslexic).
- 35% will drop out of high school.
- 31% get in trouble with the law.
- 54% have alcohol and drug addiction.

Come hear about
Learning Through Listening
