

Teacher Training

Introducing a New Teacher Training Program from RFB&D®

Practical, Powerful Information to Help You & Your Team Launch a Successful Learning Through Listening® Program in Your School.

RFB&D invites you to participate in our new free online web-based training programs, created specifically to help classroom educators, administrators and school library/media specialists use RFB&D's AudioPlus® books on CD, our equipment and our Learning Through Listening Program successfully with students.

The web-based trainings are offered to you at **no cost**, as part of your school or district's institutional membership with RFB&D. We've developed two training programs, one focused on introducing you to our program and our specialized equipment; and the other focused on successful classroom implementation.

LTL001: What Learning Through Listening Can Do For You

This session is valuable for all new RFB&D institutional members and for long-standing members who may want to introduce new team members to the program. In this live training, we'll cover:

- What RFB&D's Learning Through Listening Program includes
- What resources are available from RFB&D to support your Learning Through Listening Program
- How to operate the equipment

We'll cover the fundamentals of operating your specialized playback equipment, navigating through an audiobook, and specialized functions, including entering pass codes and working with bookmarks.

Training is available for the following pieces of playback equipment: Victor Wave, Victor Classic X Plus and the Victor Vibe.

LTL002: Learning Through Listening Classroom Implementation

This session focuses on integrating audiobooks successfully into multiple learning environments, including general, resource room, inclusion and self-contained classrooms. We'll focus on a case study and give each participant the opportunity to investigate multiple options for implementing an audiobook program in the classroom. Our live presenters will share field-tested tips and techniques and our program experts will answer questions from participants about best practices in action.

Pick the Sessions that Work Best for Your Schedule

We present each session once monthly at different times during the day to accommodate educators' scheduling needs. You'll find the updated training schedule online at www.rfbd.org by clicking on the **Teacher Training** tab to the left. To participate, you'll need access to an Internet-connected computer and a telephone. It's a simple process and enables you to participate in the training at school or at home ... whichever is most convenient! **Custom training is also available!**

E-mail teachertraining@rfbd.org for more information.

Ready to Register?

To register for a web-based training, contact our training specialists via e-mail at teachertraining@rfbd.org. You'll receive information about logging on to your session prior to your session date.

For additional information about training, membership and all RFB&D member services and programs, visit our web site at www.rfbd.org or call us at 800-221-4792.
